

It is our mission at Nagios to serve our community of users with reliable, technically-progressive, and sophisticated IT monitoring solutions. As industry experts and the creators of Nagios Core - the most widely used open-source monitoring project in the world - we believe our product prices reflect where the industry's pricing should be: affordable for all.

About Nagios

Nagios Enterprises is the industry standard in enterprise-grade IT infrastructure monitoring. We help millions of users (like you) around the globe implement Nagios® monitoring products, services and solutions, to make your job (and life) easier.

Support

Looking for some guidance? We've got you covered. Our support forums and emails are included for the first year of your Nagios license. We encourage you to make use of our knowledgeable team!

You Speak, We Listen

At Nagios, our products are developed with our customers in mind. Our latest release of XI was developed using feedback from our community of users. In one case, a customer experienced an issue with a bugfix in the API of XI that prevented him from effectively using the API for his specific business needs. He let us know, and we made sure to fix it in the next release - ask from Nagios and you shall receive.

Training

Become a Nagios expert with our training and certification programs. Get hands-on experience with Nagios and learn how to successfully install, configure and manage a Nagios deployment. With our live, virtual training, you can interact with our instructors as they walk you through Nagios labs to help you really get the hang of our software suite.

Self-Paced Training (Included with XI):	\$199
Basic 5 Day Nagios Training:	\$995
Advanced 5 Day Nagios Training:	\$1,495

Free Quickstart

Quickstart services cover up to one (1) hour of time for our techs to install and initially configure Nagios software on your server.

The Bottom Line

Nagios offers better ROI, lower TCO, and more capabilities than any other Competitor. Choose the better solution; Nagios!

What Our Customers Are Saying

"Nagios helps our organization know about outages on our customers' network before they pick up the phone."
- NRS Small Business Solutions

"Nagios is an integral part of our infrastructure. By notifying us immediately of a service outage, we were able to rectify the issue before our customers and end users experienced any problems."
- Sunrise Community Banks
