

# How To License And Activate Nagios Log Server 2026

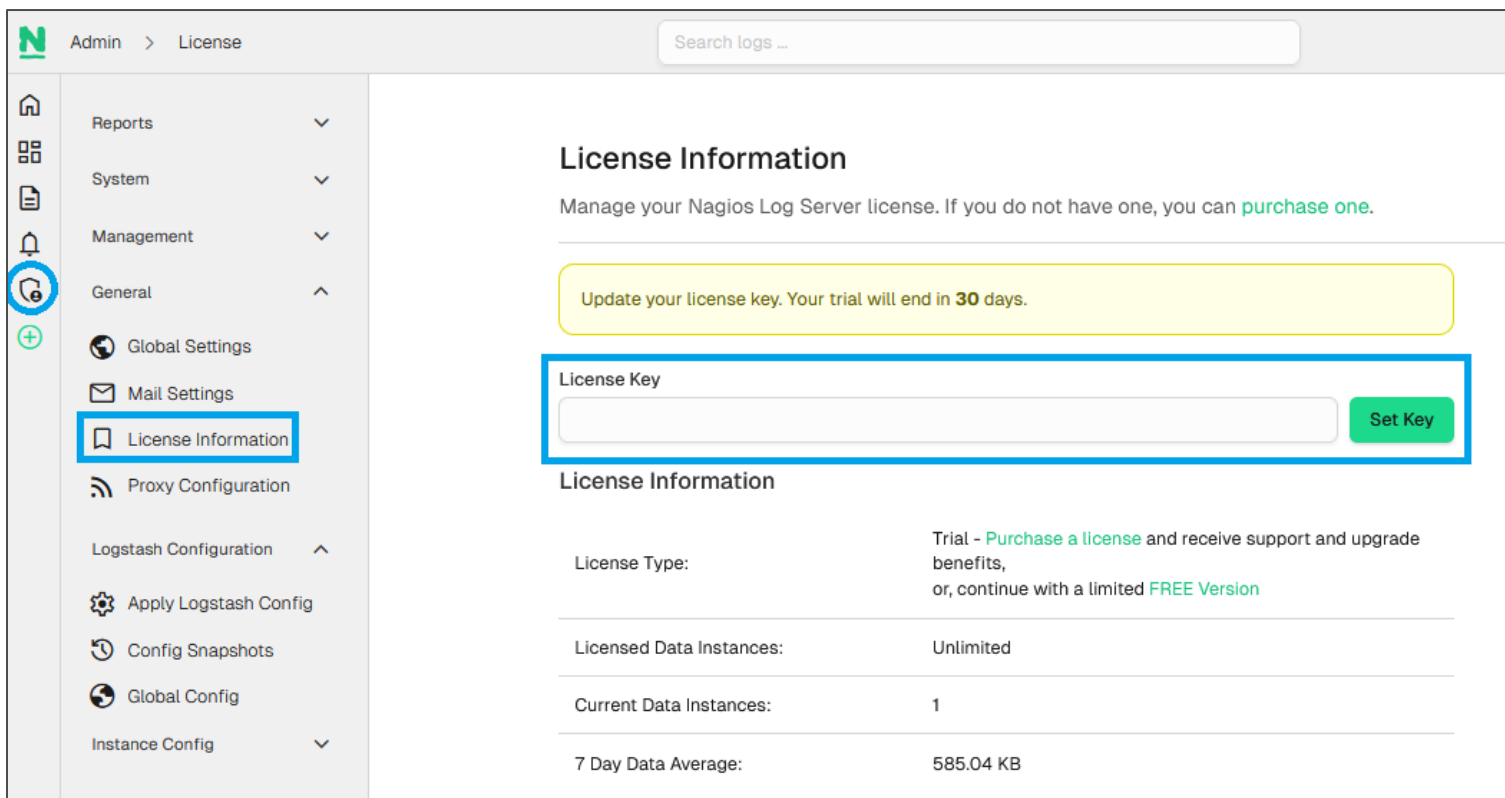

## Purpose

This document describes how to license and activate your Nagios Log Server 2026 installation.

## Adding a License Key

To begin, navigate to the **Admin > License Information** menu.

Enter your License Key, then click **Set Key**.

The screenshot shows the Nagios Log Server 2026 Admin interface. The left sidebar contains a menu with 'License Information' highlighted. The main content area is titled 'License Information' and includes a search bar at the top. Below the title, there is a message: 'Manage your Nagios Log Server license. If you do not have one, you can [purchase one](#).' A yellow box contains the text: 'Update your license key. Your trial will end in 30 days.' Below this is a 'License Key' input field and a 'Set Key' button. At the bottom, there is a table with license information.

License Information	
License Type:	Trial - <a href="#">Purchase a license</a> and receive support and upgrade benefits, or, continue with a limited <a href="#">FREE Version</a>
Licensed Data Instances:	Unlimited
Current Data Instances:	1
7 Day Data Average:	585.04 KB

You will then be brought to the Product Activation menu.

If your Log Server system has internet access, proceed to the next section.

If your Log Server system is offline, proceed to the [Offline Activation](#) section.
