

Pricing for a Nagios Network Analyzer license is determined by the number of instances you intend to deploy. Each deployment requires a separate license. There are no restrictions on the number of network flow data sources that can be integrated with a single license of Nagios Network Analyzer.

Regular Price	
1 Instance	\$1,995

What comes with your license?

- + 1 Year of Maintenance
- + 1 Year of Ticket Support (Up to 10 Incidents)
- + Access to our Customer-Only Support Forum
- + Perpetual License
- + Product Influence

Renewals

Renewal pricing for Nagios Network Analyzer provides you with the ability to upgrade your installation with the latest version releases, features, and bug fixes to ensure your environment is safe and secure.

Support & Maintenance renewals enable you to receive access to new version upgrades of Nagios for one year, along with direct ticket and Customer-Only forum support with a 1 business day response time guarantee.

Renewal Price	
Support & Maintenance	\$1,675

Support Options

Each purchase of a Nagios Network Analyzer license provides you with access to the Nagios Support Center and provides up to ten support incidents per year. Additionally, you will have access to the Customer Support Forum.

Phone & Email Support

Need additional support? Gain access to additional priority support services-- the fastest way to get a response from our technical team. Support plans require an active license to use, and expire one year after they are purchased.
